Show it. Control it.

DIVUS D+
Be clever. Live smart.

KNX

DIVUS D+
The cost-effective starter server for KNX systems

The new DIVUS D+ server turns flats and single-family homes, offices, medical practices and many more into a place of well-being. It easily networks the devices of your KNX system and leaves you in control. Whether you're sitting on your couch sofa or being on the road. With the help of the compact server, you control your system and make your life easier - lighting, temperature control, blind control and many other functions are regulated and controlled with the DIVUS Optima app. The app works on all mobile operating devices such as smartphones and tablets.
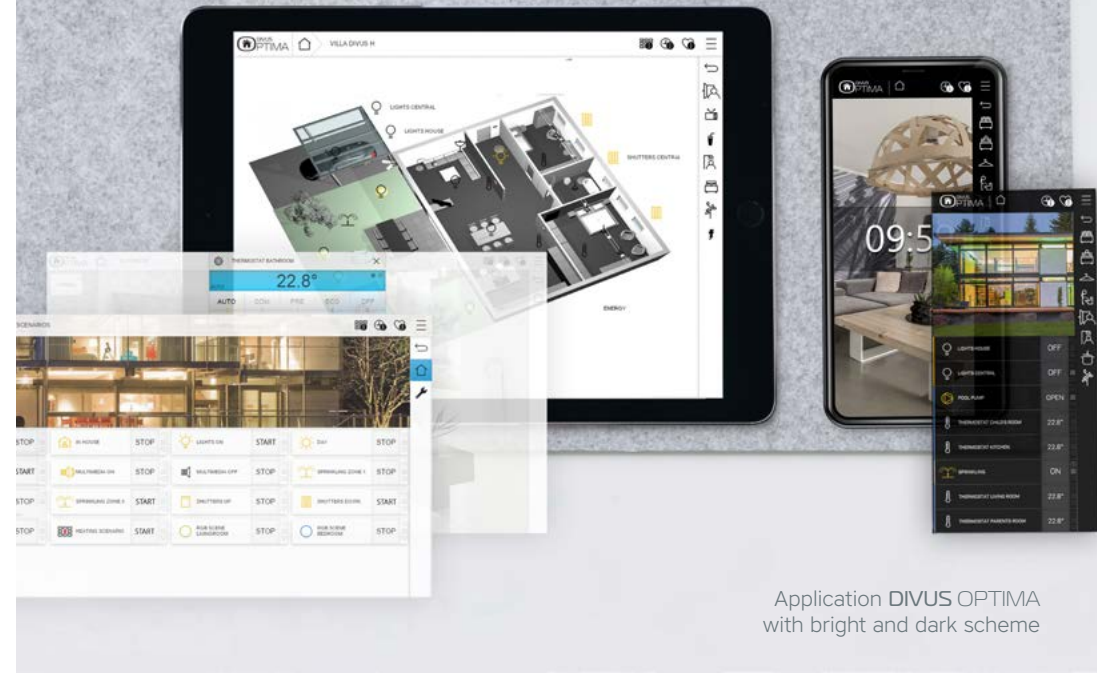

Discover your new possibilities with DIVUS D+

Application **DIVUS** OPTIMA
with bright and dark scheme

DIVUS D+ convinces with these functions

|				
Lighting control	Blinds	Temperature control	Energy	Presence-simulation[1]
Irrigation	Alarm systems	Weather station	Multiroom	Window and door contacts
IP- cameras	Sequences	Schedules	App Control	Cloud

[1] available from 2021

DIVUS OPTIMA visualisation interface

The D+ SERVER scores with its elegant design and wide-ranging functions for controlling your Smart Home.

The visualisation can be created both in full graphic mode, in which the operating functions can be placed directly on the background image, and in grid view. In addition to classic floor plan representations, real room images can also be used as backgrounds. Placed objects are either activated directly on the basis of their operating options or open up for extended input options. The menu bar that can be displayed is used for easy navigation between floors, rooms and comprehensive function areas for light, climate, shading and security control, scenarios, web pages, weather forecasts, news tickers or the message board.

Possible combinations

WLAN CLOUD

KNX

DIVUS D+

DIVUS CIRCLE small

optional
DIVUS TOUCHZONE 10"
(7", 15", 19")

Tablet

Smartphone

Keep it flexible!

To use your DIVUS D+, all you need is your current mobile operating device to stay in control from anywhere. On your tablet and/or smartphone (Android & iOS), DIVUS OPTIMA visualises Íyour building. In combination with a building touch panel, the DIVUS TOUCHZONE is the best choice.

The areas of application DIVUS D+ Server

The areas of application are private properties (flats, houses) and commercial properties such as medical practices, shops, offices and production areas.

Residential and Office building

Offices

Restaurants

Bars

Medical practices

Schools

Museums

Churches

Keep full control over all functions

Smart advantages

Comfort. Relax, your home takes care of your well-being! With just one touch, you create the desired atmosphere and control all functions.

Security. You can sleep peacefully! Whether you are at home or on the road, you have an overview of what is happening in or outside your own home.

Entertainment. Waking up to your favourite song, cooking with radio entertainment and a bath with lounge music! The multi-room audio control allows access to the central music library.

Rentability. Save money and energy without sacrificing comfort! The intelligent energy management system regulates the interaction of your power sources.

Future. Keep it flexible! Life circumstances can change at any time, the system adapts easily by reprogramming.

Technical details

With DIVUS D+ you can turn any building into a smart building. The server is controlled and switched via the touchpanel DIVUS TOUCHZONE or current tablets and smartphones (iOS and Android).

SPECIFICATIONS D+	
Number of KNX group addresses	1000
Sequenzes	100
Schedules	unlimited
Advanced logics	3 logic programmes with 15 tasks each
Energy meter	9
IP cameras	25
Rooms	100
Data collection (data log)	15 data points
Cloud	✓
Alexa, Google Home	✓
Sonos, HUE, IFTTT	✓
Presence simulation²	✓
Astronomical clock²	✓
User Interface	Web / HTML5 (All operating systems) App support (iOS / Android)
Number of clients	Unlimited (without licence costs)
Parallel connections	max. 20
Browser compatibility	Google Chrome, Apple Safari, Microsoft Edge
Controllable elements	Lighting, heating / cooling, window and door contacts, sprinkling, thermal control, alarm systems, energy management, load control, weather stations, IP cameras, multiroom
Supported operating systems	All
Gateway	Can be used for KNX programming
